JJ KOCH | AWARD WINNING SEARCH MARKETER

I TURN SEARCH INTO A GROWTH ENGINE.

I run SEO, paid search and AI search as one growth program, measured in pipeline and revenue rather than rankings. Computer scientist by training, search marketer by track record: a 20-person agency practice and its P&L, a 13-region enterprise program, and a growth-stage SaaS search engine that became the company's largest measured pipeline source. Two US Search Awards Silvers in 2026.

WHAT THE JUDGES SAID

"A highly impressive, data-driven approach to AI search optimisation, grounded in genuine buyer language rather than assumptions. The connected attribution, analytics and tracking framework was particularly strong, creating a credible way to measure AI search impact through the pipeline and commercial journey."
